EDUCATION

KCG COLLEGE

B.E in Computer Science
and Engineering - 2022-26
CGPA: 9.32

SRI SANKARA

HSC - 2021
PERCENTAGE: 87%

SRI SANKARA

SSLC - 2019
PERCENTAGE: 90%

SKILLS

LANGUAGES

C, Java, Python

FRAMEWORKS

Fast API, React.js

TOOLS

Git/GitHub, Postman, VSCode, Figma,
Adobe XD

SOFT SKILLS

Analytical thinking, Exceptional
Communication,Adaptable &
Tech-Agnostic

COURSEWORK

Cryptography & Cybersecurity
Database Management Systems
Operating Systems
Object-Oriented Programming

CERTIFICATIONS

Introduction to cybersecurity / cybersecurity essentials

cisco-2024

Certificate Of Excellence

KCG COLLEGE-2023

B2 Grade in Lingua skills

cambridge- 2022

LANGUAGES

Tamil, English, Hindi

ABOUT ME

I'm a passionate and driven final-year engineering student with a strong interest in technology and continuous learning. I focus on building practical skills in web development, UI/UX design, and software projects. I enjoy solving real-world problems and aim to contribute meaningfully to the tech industry while growing professionally.

EXPERIENCE

READ AUTOMATION | Frontend Intern

Oct 2024 – Nov 2024

- Worked on Front-end user interface tasks, ensuring the development and enhancement of intuitive web applications
- Developed and optimized features for the FISCO (Finance)
- Tech Stack: **HTML, CSS, Javascript, React.js**
- User Interface: Fisco

PROJECTS

JOB MARKET INTELLIGENCE TOOL USING PYTHON | Mini project

Python, BeautifulSoup, pandas, matplotlib

- Built a Python tool that **scrapes real-time job** listings for React developer roles from **RemoteOK.com** using **BeautifulSoup**.
- Processed and analyzed job data (title, company, location) using **pandas**, visualized trends and top recruiters with **matplotlib**.
- **Exported data to CSV**, documented the project, and published it as a mini project on GitHub to showcase web scraping and data analysis skills.

SEA FOOD DELIVERY SYSTEM | Main Project

MERN stack

- Developed a responsive food delivery application with real-time order tracking and **secure payment integration.**
- Implemented **user authentication**, dynamic restaurant menus, and order management for both users and admins.
- Focused on providing a smooth user experience and seamless backend integration using **RESTful APIs.**

ACHIEVEMENTS

ACADEMICS

- CSE department Academic Topper 2022-2023 - **95.5%.** .

TECHNICAL PROFILES

- Leetcode: **leetcode/sahana**
- GitHub: **github/sahana**

INTERESTS

- Networking, Cybersecurity
